

Zonta Club Hobart is a 50-year-old Club, part of a wide and diverse international network of people who work together to enhance Human Rights. We hope the following will foster community collaborative action in conserving our environment.

## **HOUSEHOLD HINTS**

- Reduce your carbon footprint
- Aim for zero waste
- Live a healthy lifestyle with a sense of wellbeing
- Save!

## **Appliances**

Switch off / unplug appliances at the power point rather than leave on standby Wash clothes in Cold Water or at a lower temperature for some washes Run full loads rather than frequent, small loads Avoid using the tumble dryer (hang clothes up)
Familiarise yourself with the EU Energy label ore "A" label when buying appliances Check the seal on your oven is sound Slow cookers use less energy to heat

## **Away from Home**

Travel with your coffee keep cup
Take the stairs rather than lifts
Consider riding your bike to work (Note...An electric bike may encourage you)
Avoid air conditioners and heat pumps windows anywhere if in use
Fly carbon neutral -Fly less often, maybe stay longer
Think about when and how you choose to drive, take public transport, car pool

# **Clothing**

Donate, swap, sell, rent out unused clothing
Borrow or buy clothes second hand
Re-dye natural fibres eg cotton, linen. Thai dye old sheets to make present wraps
Repurpose wool from old jumpers
Use old clothing to make squares of perpetual present wraps

# Computers and technology:

Check your brightness and display settings, power down your laptop. Remove phone from charger when charged. Turn off phones or switch to aeroplane mode overnight

# **Energy Consumption**

Research the purchase of solar panels and batteries Research new electricity companies. Ask your provider for a smart meter.

## **Heating and Cooling**

Have heaters running at moderate temperature (18-21 in winter)

Even reducing your heating by 1 degree will help

Have air conditioners set to 23-26 in summer

Adjust setting on heat pumps to low fan

Turn of fans on wood heaters

Close doors to rooms not being used when running heat pumps

Turn the tap off while brushing your teeth or cleaning dishes

Make sure your hot water system is set to a maximum temperature of 60 deg C

Do your really need a heater on in your bedroom?

#### Garden

Grow your own vegys, pickle, preserve, freeze

Apply mulch to the garden

Choose water-efficient appliances, drip feeding, soaker hoses.

Regenerate struggling plants. Re pot them and nurture them then re-plantwhen healthy.

Set up a composting system and a worm farm

Grow your own honey - consider bee keeping (note strict practices apply)

Explore hot housing and hydroponics

Join a community Garden

Collaborate with neighbours to grow and swap produce

### **Healthy Living:**

Food self-sufficiency – Grow your own produce.

Eat foods that are in season

Limit meat consumption and buy fish from sustainable fishing outlets.

Take 'nude' lunch eg plastic free

Eating Local, shop local. Seek out Local Produce Markets – eat more vegetables.

Consider using a dehydrator

Use a coffee keep cup

Take your water bottle everywhere rather than buy bottled of water.

Make beeswax wraps instead of cling wrap.

Use leftover vegetables in soups and stews.

Make your own ice cream, mayonnaise, jams, chutneys and sauces without additives.

Purchase bamboo toothbrushes and toothpaste tablets online or in bulk shop

Menstrual cups – with advice from your doctor.

#### Insulation:

Is your home is well insulated.

Single – glazed windows might be switched to double glazed.

Use think curtains and pelmet boxes or purchase window insulation panels

Look for draughts and heat loss.

Have knee rugs and throws handy

Wear thicker clothing while inside your home

### Lighting:

Switch off unnecessary lights.

Check your light bulbs are LED bulbs and and are appropriate power for the situation.

Check your sensor lights are not going on and off too frequently.

Understand your electricity contract. Purchase green power, utilise off peak rates eg using appliances after 9pm

Check any spotlights don't come on unnecessarily in the wind?

#### **Water Conservation**

Use a shower timer, reduce shower time.

Fit water efficient taps and showerheads

Consider a rain water tank

Water in evening or early morning

#### **Zero Waste**

Reduce over consumption and know your recycling rules

Take reusable shopping bags to purchase produce, buy in bulk. Refill Milk bottles.

Buy compostable nappies/reusable cloth nappies.

If you always buy more than is on your list – think about shopping online for boot pick-up. Shopping online saves time, constricts your budget and helps employ pickers.

Before you buy something – ask yourself if you really need it.

Buy in bulk to avoid unnecessary packaging and/or choose products with least packaging.

Network: explore groups in your neighbourhoood eg repair café, upcycled cloth collective, local farmers markets and pre-loved markets.

REPAIR household items.

REPURPOSE ie declutter, sell or donate items no longer in use.

RECYCLE - There are many ways to repurpose or recycle items. Before you 'throw' ...'think'

Keep old envelopes for note paper

Cut up old sheets for cleaning rags ore make into pillow case underalys.

Cut up printing rejects to form shopping lists.

Store files digitally instead of on paper.

Find a neighbour with chooks to recycle scraps.

Look at local council disposal sites for difficult to recycle items, eg paint, gas cylinders et

Keep old candles to melt and remake.

Say no to plastic straws and polystyrene containers.

Before you throw out.....think through options.

## Household Cleaning & Recipes Reduce the use of chemicals in your household cleaning:

### Shopping List:

Purchase glass spray bottles 500+ ml.

Very flexible ice block trays or choose to use crumbly substances.

Castille Liquid Soap 500ml bottles available in supermarket

Cleaning Vinegar 2 ltr available in hardware

Essential Oil drops/fragrances available from a range of sources.

Water or distilled water/demineralised water - hardware stores.

Washing Soda - bulk food stores

Methylated spirits

Air Freshener	Add your favourite oil/fragrance to a spray bottle of	
	water	
	Say, 15 drops to 500 ml.	
Bathroom	Hair Shampoo (1)	
	125 ml boiled water cooled	Mix in blender
	15 drops of chosen essential oil	
	½ teas olive oil	
	Add ½ tsp xanthan gum	
	125 ml castille soap	
	Hair Shampoo (2)	
	½ cup water.	
	½ cup castile vegetable-based liquid soap	
	1 teaspoon light vegetable oil or glycerine (omit if you have oily hair)	
	A few drops of your favourite essential oil	
	(optional)	
	Soap	
	There are many references online for soap making.	
	Mould Spray (pink mould only)	
	Add 1 cup vinegar per 500 ml water, Oil Clove 10-15	
	drops, or chosen oil/fragrance (non-porous surfaces)	
Glass Cleaning	Mix equal parts vinegar and methylated Spirits	
	with essential oil as preferred eg peppermint,	
	lavender, lemon
